

Liberal Arts Associate in Science (LATAS)

Transfer Guide – Pre-Construction Engineering concentration

*This degree strengthens foundation skills, provides broad understanding, and develops reasoning skills as students prepare for advanced studies in a natural sciences, mathematics, or science-dependent program. By taking the suggested courses below, students are able to transfer into a baccalaureate degree program at a four-year college upon completion of the associate degree. Each transfer institution publishes requirements for admission, general education, and major concentration areas. **Students should consult with the institution they plan to transfer to and their MCC Advisor for courses that best fit their intended plan of study.** For Students planning to transfer to UNO/UNL College of Engineering the below information can also be viewed on Transferology.com under UNO/UNL Pathways. For more information on accessing that please contact the MCC Transfer Center.*
