

INSTRUCTIONS FOR THE FREE ACCUPLACER STUDY APP

1. Go to <https://accuplacerpractice.collegeboard.org>
2. Type in your email address, and then create a password.
3. **Next-Generation Practice Tests**

Go to “*Change Test Version*” and select **Next-Generation Practice Tests** page. Select the type of test you want to practice on and begin (Learn as you Go provides feedback on missed items, Sample Tests do not). You can return at any time to continue or complete a test.

- If you are taking the **English Assessment**, review the *Reading* and *Writing* practice tests.
- If you are taking the **Math Assessment**, you may choose any section of the assessment in which you would like to begin. Start your math review at your level of comfort. Review *Arithmetic* if you are not fluent in your math skills. Review *Quantitative Reasoning, Algebra, and Statistics (QAS)* section if you are confident in your calculating skills (we suggest reviewing this section as it is the start of college-credit level courses). Lastly, if you already have a higher level of understanding of mathematical calculations and the ability to successfully negotiate upper levels of math, review *Advanced Algebra and Functions (AAF)*.

4. **ESL Practice Tests**

Go to “*Change Test Version*” and select **ESL Practice Tests** page. Select the type of test you want to practice on and begin (Learn as you Go provides feedback on missed items, Sample Tests do not). You can return at any time to continue or complete a test.

- Review the *ESL Listening Skills, ESL Reading Skills, ESL Sentence Meaning, and ESL Language Use* practice test sections.
- If you do very well on the above two reviews, go to “*Change Test Version*” and select the **Next-Generation Practice Tests** page. Then begin a review of the *Reading* and *Writing* practice test sections as well.

5. When returning to the website after initially creating your profile, use the **Returning Users** log-in to sign in.
